

Agenda: IT Security- Internet & Browser

Introduction: So you have been learning to take care of your computer the free-way

Class discussion: What are the challenges and dangers does using a browser present?

- **Danger to family or children**
- **Allow virus to affect your computer and have to spend to buy expensive software**
- **Learn to use own home computers safely and prevent expenses damages because of malware. So will learn to do the repairs the Free-Way**

- **So we will be using our Mock Business to.....**

Review:

Student Activity (Hands on computer)

Homework Assignment:

Tool box: Reason why use Revo Uninstaller it handles all different browsers.

Reason why we focus on Internet Explorer is because Windows comes with it and Windows tools to support it. Also, many businesses use it and so we need to know how to secure Internet Explorer.
