Kisa Nou We Nan Mize a ?

Mwen we anpil bagay nan mize.
Mwen we anpil stati nan mize.
Mwen we anpil moun nan mize.
Mwen we anpil bèl bagay nan mize.
Mwen t ale nan mize.

~ Denise

Mwen te ale nan mize. Mwen te we yon tablo. Tablo a gen yon cheval e li gen yon kavalye sou li. Yon lòt te kanpe kote yon gran sal la. Tè a te fè an bwa. Li te gen yon gwo vèso won li gen yon bèl flè vè ki kanpe nan vèso a nan lakou. Mwen te we yon madanm ki t ap ba nou infòmasyon de sa nou we. E nou we plizye lòt moniman e statì kote la. Mwen vle Bondye fè m ekri byen.

~ Iphana
**Kisa Nou We Pandan Nou Rive Lekòl la ?**

Mwen rive lekòl la san pwoblem. Mwen bezwen sòti lekòl pou m rive lakay mwen an byen. Mwen mache pou m vin lekòl la trebyen. Lè m mache li bon pou mwen paske mwen fè egzesis rapid. Mwen bezwen pitit mwen sòt lekòl la byen. Mwen ta renmen we fanmi mwen byen.

~ Margaret

Bondye fè m sòt lakay mwen an byen. Mwen rive lekòl la trebyen. Lè m ap vin lekòl la m ap travèse lari a, mwen gade avan mwen travèse. Mwen mache sou kote lari a. Mwen we machin, mwen we moun nwa, mwen we moun blan, mwen we jaden, mwen we kay, mwen we pyebwa. Pandan m mache mwen we jaden flè. Flè yo tout koulè yo. Mwen we wouj avek blan, mov, jòn, vè, maron. Mwen rete lage, m kanpe pou m gade li bèl.

~ Agemie

Lekòl la komanse a nevè. Mwen sòti lakay mwen a 8 è. M pa konnen konbyen mimit mwen fè pou m rive lekòl la. Mwen mache e pafwa mwen vin nan vwati. Mwen we anpil moun e anpil machin. M santi m byen lè m nan lekòl la paske mwen di avan m mouri se pou m aprann li ak ekri.

~ Iphana

Lè m vin lekòl la mwen kontan paske m vle aprann li ak ekri. Lè ou rive yon kote ou we an nwa paske ou pa konnen anyen. Lè ou vin lekol la ou vin pou li ak ekri paske si ou konn on bagay l ap bon pou ou. Premye fwa m vin lekòl la se yon moun ki te montre m manman son yo. Lè m rive nan lakay mwen m gade nan liv mwen, mwen we chak manman son nan no yo, m sonje yo nan tèt mwen. Mwen kontan.

Teacher’s note: We spent a lot of time in class this year sharing our stories. We learned about each other asking and answering questions. We decided to share our stories here about our mothers and others who took care of us.

My Mother is Altagrace

by Simone

I am happy to talk about my mother. She was from Haiti. My mother worked full time in a factory and was a businesswoman. She lived in Port-au-Prince.

My mother took care of my family. She was married. She had 8 children. She wanted good for my family. She used to help me with my homework. She was good in French. She explained my homework to me. She told me to do my homework and not to watch television.

She worked in the house and was always busy. She never went to the hospital. Seven of her children died before her. She was a strong woman. She died when she was 96 years old.
Good Mother
by Jean

My mother Andrea is a very brave person. For me she is one of the best mothers in the world. She can not read or write. But she was very intelligent and helped us with our school work.

My mother worked very hard to insure the education of her children. She is very charitable and loves all children. She didn't make a difference between her children and others. She told us about her childhood life. She grew up in the middle of 2 brothers and 2 sisters of which she is the last child.

In 1966 she married and had 5 children. I am the third. She had difficult times in her life. She worked harder in business activities because our father was a convalescent. She was a good advisor, a good cook and a good mother for her children.

During the period of 2001-2004 she lived painful moments. Her 2 brothers and 1 sister died. At the end of 2003 her first daughter died. In January 2004 her adopted son and two nephews were abducted by gunman. Five days later they were found dead by several bullets in the Haitian capital. After these sad moments she sold off her business activities. She continued to go to church.

In February 2005 she became ill. She’s still paralyzed and not talking since that date despite therapeutic sessions.

Now she is 73 years old. She is surrounded by her two daughters, nephews, nieces, friends and her last sister. We love her alot and say thank you to God for this good mother.

My mother I love you.
My Mother
by João

My mother’s name is Maria Monteiro. She is sixty-two years old. She is average height and average weight. Her eyes are brown and she is beautiful. She was married to my father Manuel Monteiro when she was 18 years old and the marriage resulted in 5 children, Beatriz, Cesar, João, Paulo, and Alvaro.

She started working when she was nine years old, taking care of the house and her brothers. She did the weeding, constructed roads and houses, and all the hard work. She also worked as a seamstress. To help my father support our family she worked a little of everything. She retired at age sixty.

She came to the U.S. eight years ago with my brother Alvaro. She worked in a nursing home and bought a house for her children. She loves to help everyone.

There isn’t a book big enough to write about everything and how much she has done for us. That is why I love her so much.

Thank you my mother for everything.

My daughter Carla De Baveros
by Beatriz

Today I’m going to talk about my daughter. Her name is Carola de Baveros. She is eight years old and she’s very intelligent and caring. She is studying at Orchard Gardens. She is very pretty. She has dark brown eyes and long hair. She is the youngest of my three children. She is the joy of the house. I’m very proud of her. She likes to play with dolls. She likes to read. I love her very much.
My Mother  
by Nassau  

My mother’s name is Viegemmene. She is from Haiti. She was a business woman. She bought things in the public market Berlade and sold them in Mirebalais. She bought spaghetti, bananas, and rice. She also worked in the house.  

My mother has six daughters and one son. She is 52 years old. My mother came to America two years ago. She works as a baby sister. My mother is an excellent person. She is the best mother. She supported me. She takes care of her children. She is very nice. I love my mother.

My Country  
by Camitha  

May 18, 1803 is the birthday of my flag. Dessalines fought for our freedom. He died fighting so that we could be independant and not in slavery. Haitians celebrate on that important date every year. Haitians always go to parties to celebrate.  

Today I am going downtown. I see a lot of people. It is a pleasure to see a lot of people with my flag. They are singing the Haitian national anthem. Many people are wearing red and white t-shirts.
My Mother  
by Acephie

Hi my name is Acephie. I am from Haiti. I am happy to speak about my mother. Her name was Clesire. She was from Haiti. She was a business woman. She bought things in the public market in Port-au-Prince and sold them in Petion-ville. She also worked in her house. She cleaned and cooked and washed the clothes. She had 11 children, 9 daughters and 2 sons. My mother went to school. Now my mother is dead. She died 10 years ago. I miss my mother a lot.

My Grandmother Melanie  
by Nitchelle

From the age of two I was raised by my grandmother Melanie Pierre Louis. She was thin and had long hair. She was very beautiful. She had five children. My grandmother worked in a restaurant as a cook and everyone loved her cooking.

My grandmother was a very caring person. Everyday she made sure that I had clean clothes for school and that there was food on the table. After school, she always helped me with my homework. She supported me in everything. My grandmother had many good qualities and she was very passionate about me.

She died two years ago from a stroke when she was 84 years old. I loved her very much and she is always in my memory.
**My Daughter Joyce**  
*by Germana*

My daughter’s name is Joyce. She is 17 years old. She has short brown hair and brown eyes. She studies at the Burke School. She is in 12th grade. She likes to play soccer a lot and sing music. My daughter works at McDonald’s on Tuesdays, Thursdays and Saturdays. She is a happy and fun girl. She is always smiling. She has been in America for seven years and seven months. I’m proud of her, thank God.

**My Mother**  
*by Margarita*

Hi, my mother’s name is Joana. She lives in Cape Verde. She has 7 children, 5 male and 2 female. She took good care of us. She does not have a husband because he died when I was 8 years old. My mother took care of me until I was 19. My mother is very nice. She was a good mother to us. Now she doesn’t work but she takes care of my daughter and the house. I’m really proud of her. I really like her. She helps me in my difficult times. I thank God for giving me such a good mother. Mom, I love you.

**My Mother**  
*by Paul*

My mother’s name was Lejena FanFan. She died in Haiti when she was 68 years old. She died in 2017. She was good to me. She paid attention to me. She had 10 children, but now there are only 9 children. Everyone is sad because my mother is dead.

She went to school. She read her native language. She liked to read the Bible every day. She went to church every Sunday. She felt okay about writing in Haitian Creole. She was confident writing in her language. She never forgot to read the Bible. I love my mother.
My Mother
by Marde Darline

My mother is a special mother. Her name is Mondilia. She lives in Haiti. She has five children, two girls and three boys. I love my mother because she is a good mother. Her job is to take care of the children and clean her house. She’s married and her husband’s name is Fritznel. She’s the mother of all mothers. She’s the best. She’s always there to help her children with anything they need. She always gives us good advice. She always does everything she can do for us. My mother always paid for all our food and education. When we were sick she took us to the doctor. She is very special. I am very lucky because not all mothers are like her. Anything I need my mother gives me.

Marie Louisana

My name is Marie Louisana. I come from Haiti. I was born in Jeremie in a family of six children, three boys and three girls. My father was a farmer and my mother was a saleswoman. Most important my mother was a counselor. She was there to support each and everyone who needs guidance. Two of my siblings have passed away and two are in Haiti. One lives in the U.S. like me.

My family was very big. We enjoyed everything together. My father and my mother were very close. After my mother passed away my father could not stay a moment without talking about her. Unfortunately my father passed six months after my mother. Their love example is the bond that links my family.

I have three children, one son and two daughters. Today I would like to tell you about my son. His name is Dwight and he is an engineer. He works as a teacher. He is married and has a family of three boys. His biggest dream is to help his country, Haiti. He started to help slowly with some needy people in his neighborhood. He also thinks that when he becomes the president of Haiti in 2032 he will be a big influence and help more people.
In my childhood, I remember when I was sick, she would take care of me, every day, I remember the ten first years school, every day she wakes me up to eat, every day she wakes me up to get dressed.

~ Stivens In Charles

My mother gave me a doll and she told me stories, she loved me. My mother discipline me and told me to go get water every day. She told me to prepare food, she used to eat pig, and she sent me to make purchase. My mother sells vegetables every day, she worked a lot.

~ Hironisa Jesus
My mother is someone special in my life. We were very close. I used to take her to the market so that I can buy her things.

~ Francisco Algarin Santiago

About my mother, she is very affectionate with her children and with people. She likes to help. She has five children. Her father died early. My mom was 27 years old and she raised her children by herself and I was 3 months and a half. She overcame and after fell from anemia and died at 47 years old. I became sad without her. I love my mom very much.

~ Belmira Fernandes

When I was a child, my mother took good care of me. She educated me, taught me many things. She is a fantastic woman, I owe her a lot.

~ Maria Barros
I was 5 years old, my mother had not sent me to school yet by letting me know that I'm too small to go to the road because there were no schools near to me. Very often, I had tears in my eyes when I saw other children who are going to school but they were taller than me. At the age of 6, my father died. At the age of 7, more precisely in September, my mother brought me to a tailor. The latter had taken measurements of pants and shirts. She had not said anything to me. She put the uniforms, shoes and books in a place where I could not see them. October 3 was the opening of the school. On October 2nd, at night, my mother told me tomorrow you are going to school. I jumped for joy. I remember this act of my mother from my childhood as an immortal memory, namely, the first day that my mother had sent me to school. It was a deliverance for me.

Here in the United States, May 13 was Mother’s Day. In Haiti, it is the last Sunday of May that we celebrate Mother’s Day. Men, women and Children whose mothers are alive buy red flowers and those whose mothers are dead buy black and white flowers that symbolize mourning.

~ Laurore Edouard
When I was a child, my mother took care of me, went out with food, baths and made me sleep with traditional songs. Always with me carried behind. I am a proud boy today. She had a lot of sacrifice so that today, I have a character of honesty. I was disciplined when I did bad things. Many sacrifices have reached the highest level of results today. She is known as a working mother who always does the best for her children. She struggled day and night to feed us and gave us all that she could. She was a great who mother took care of us all and worked to feed us and send to school even without financial conditions. I cannot forget what she did for us. She gave us better advice and helped us the more we needed. I’m grateful for everything that she has done for us. There are no words to describe her.

~ Joao Lopes
In my childhood, I remember my mother caring of the families, the husband and the children, cleaning the house, cooking different types of meals. I remember my mother and I prepared for my brothers and sisters to go to school for week and Sunday for church. I love my mommy. This is a little of memory I have from my childhood about my mother.

~ Sandra Brandao
Intermediate ESL Class

What is your biggest dream?

My biggest dream is I want to go to school to get an education. Then I’m going to go to college for something good. I like electricity and I want to be an electrician.

~ by Bertho

My biggest dream is to be a very successful business woman, but never forget how to be a mother and a wife. I want to be a model everyday for my children.

~ by Pauline

My biggest dream is I want to bring my wife and my son to the US, to live with me here and have a better life for everyone.

~ by Riveline
What did you do yesterday?

I went to the bank yesterday morning. I wanted to talk with someone because I lost my debit card. The bank is in Hyde Park. It took me about 45 minutes to walk there from my house. I walked by myself. Walking is good for me. When I got to the bank, the bank representative said I needed to show my ID to get a new card. I went home to get my passport.

~ by Delta

Yesterday I spoke to my friends. I walked to the park. I cooked rice and beans. I went to 1010 Massachusetts Ave. I drove my cousin to his house. I saw my sister. I’m going to do my laundry tomorrow.

~ by Rose

Yesterday I woke up and prayed. I brushed my teeth and ate breakfast. I brought my son to school and I came back home. I made dinner and watched TV. I picked up my son at the bus stop, read a book and did homework with him. I went to the store and then came back home and went to bed.

~ by Pauline

Yesterday I didn’t feel happy because I hurt the toe on my right foot. Now it’s difficult for me to walk. I’m going to go see the doctor tomorrow.

~ by Joseph
Yesterday I worked just 8 hours. My boss asked me to work overtime but I couldn’t because I was too tired. Tomorrow I’m going to go to the “Cape Verde embassy” in Quincy to get my passport. I’m happy because now I’ll be able to travel peacefully.

~ by Riveline

Yesterday I left my home very early because I had to work a double shift. This morning I woke up more tired than I was on Saturday and Sunday morning, but I went to school anyway.

Last week there was a storm in New England. From Tuesday until now there was a lot of snow on the street. I didn’t go to work on Tuesday but I went back to work on Wednesday as usual.

~ by Alex

What is something you have never done?

Joseph: I have never been angry with anybody. I would like everyone to feel well.

Michaëlle: I have never eaten sushi, but a lot of people say it’s good!

Riveline: I have never gone to Portugal but I would like to go. I would especially like to watch my team play “Benfica”.

Frantz: Last weekend I was sick. I had a fever and a cold. I took my car to the garage. It broke because it overheated.

What is the most important thing you have with you everyday?

My phone is important. My phone is more important than my watch. My phone is the most important thing I carry everyday.

~ by Alex
What Did You See at the Museum of Fine Arts?**

I visited the Museum of Fine Arts on June 5th. The Museum is on the way to Downtown Crossing. We took bus #23. We left GACC at 9.30 AM and we returned at 12.30 PM. I went with my teacher and students from other GACC classes.

This was my second time that I visited this museum. My first time I was amazed at what I saw. This space is spectacular and I would like to visit more often. I liked everything I saw this time, but my favorite was the painting of Greek gods on the round ceiling and also the painting of shadows of museum visitors on the wall.

~ by Riveline

Note: You can visit the Museum of Fine Arts for free every Wednesday from 4 PM to 10 PM.

How is life different here?

When I came to the United States I was so happy. There was a big difference in comparison to my country. Now I can understand how life was in Haiti. It’s not too big like here but I had love there, family, friends, culture, and it’s so hot and I love it.

This is a good experience for me and I think I will enjoy it, and I'll have friends and then I will get used to living here.

Mock Interview Questions**

1. Would you please tell me a little about yourself?
2. Why do you want this job?
3. Do you have experience working in this position? (If yes, please describe your experience.)
4. What specific skill do you have that will be good for this job?
5. Tell me about your education: what is your highest level of education?, where did you study?, what types of courses did you take?
6. Do you like working on a team? Please give me an example of a time you worked well on a team.
7. Can you tell me about a time when you had to deal with a difficult client or a difficult co-worker?
8. Can you give me an example of a time you had to work in a busy environment? (for example, if you work in a restaurant and there are many customers, or if you work in an office and there is a lot of work to do)
9. Are you an organized person? Please give me an example
10. What do you want in your work environment?, from management? (for example, you want to be around a lot / a few coworkers; have your own office space; cleanliness; manager cares for employees)
11. Where do you see yourself in 5 years?
I am really happy to tell you about last Wednesday. The first thing I remember you warned us was to dress nicely for the interview, and we were there, and they called us one by one.

When I was called, the interviewer questioned me about a lot of things. He told me to talk a little bit about myself including my personal information and my skills, so I talked to him and he asked me to give him some examples about my previous jobs or about myself. I was very happy because I talked to him and I explained to him a lot about myself, and he corrected me when I made a mistake.

So the interview was really nice because I learned a lot of things that I didn't know. So I was very happy.

~ by Pauline

He told me to speak about myself, my name, my son, etc. He asked me many questions: Are you working? What job do you have? Do you like this job? Are you finished with your university degree? In this country, what would you like to learn? Do you want to continue studying? What did you learn in your country?

I learned that talking with someone lets me be more confident with myself about learning English. From that mock interview, I learned that there are people ready to help anyone whenever it is necessary. I learned many new words when I was reading the questions for the mock interview.

~ by Michaelle

**Note:** A “mock” interview is not a real employment interview. It is a time to practice your interview skills in a situation that is like an actual job interview. Several employees of the Liberty Mutual Insurance Co. spent the morning and afternoon at GACC acting as employers looking for workers. They split up into small teams and interviewed all the students at the center. This gave the students a chance to practice their English at the same time as they practiced their communication and interview skills.
Letter of Thanks

May 2, 2018

Dear Liberty Mutual friends,

Thank you for coming to GACC. We learned something from you. It was a good experience to practice interviewing with you. We feel more prepared now for when we go to a real interview. It's good to have a conversation with new people. We talked about our past job experience and you responded with good ideas for us. Maybe we will find the job of our dreams in the future. Thanks again for coming!

Have you ever travelled across the US?

1. Have you ever traveled across the U.S.?
2. How many miles do you think it is from Boston to San Francisco?
3. How long do you think it would take to drive from Boston to San Francisco?
4. Have you ever seen the Pacific Ocean?

I've travelled across the US. I think it's 3,100 miles from Boston to San Francisco. I think it would take about 50 hours to drive from Boston to San Francisco. I haven't ever seen the Pacific Ocean.

Imagine you are in your favorite place...

When I imagine my favorite place, I am by the sea with my family and friends. The sun is hot on my head and my skin and when I get in the water I pretend I can swim (which isn’t true). And then when you’re playing boule and throwing Pass with the children, you feel great, you’re breathing deeply and it is hot. You’re drinking kola Couronne, you’re eating lanbi, life is good when you take pleasure in it all. The sand is hot underfoot, that’s exactly it and you feel as if you are in paradise.

~ by Michelle
When I am with my family and friends on my favorite sea beach, I really like to see the happiness in everyone's face. I feel like the happiest person in the world at those times, with very good weather with bright sun, lots of bathing in the sea, we play ball (footboll), cards, dominoes, we cook on the beach and have some drinks.

~ by Riveline

My dream is that I never left my family, but life always changes positions. I am here, and my family is in some other place. My family always asks what I am doing. Wherever my friends are they are always asking about me. We only hear about each other's news by telephone – that's life. I always tell them I am fine, the weather is good, it's not snowing right now. I am still going to school.

~ by Paul

My first place is my family. We were always happy, we all supported each other. When I think of my father and my mother, they never said a bad word. And with all of the children, no child ever said a bad word to another. I was always happy in that time with my family. And now it's the same way with my own family.

Premye plas se fanmi mwen. Nou toujou kontan, yonn se yon sipò pou lot. Si m pran papa m ak manman yo pa janm genyen mo sale. E nou tout timoun yo pa janm gen mo sale yonn ap di lot. Mwen toujou byen nan ti tan fanmi sa a. E fanmi pa m nan menm jan.

Do you, a family member, or a friend suffer from asthma attacks?

**Come to a workshop at the Gilbert Albert Community Center (GACC) to learn about how to control asthma. Bring a family member or friend who has this disease. Let’s spread the word!**

According to a recent Health of Boston report, 24 out of every 100 students in the Boston Public Schools suffer from asthma. Among Boston adults, almost 10 out of every 100 adults has asthma symptoms.

The Gilbert Albert Community Center (GACC) is collaborating with the Boston Children's Hospital Community Partnership Fund to raise asthma awareness in the Haitian community.

Our goal is to reduce the negative impact of asthma on the lives of Boston Haitian families. Doctors say that people who suffer from asthma can control their asthma attacks by learning to identify and monitor asthma symptoms before they become severe.

Come to a GACC workshop to learn how you can effectively treat and control asthma without major medical intervention or hospital visits. Come learn about the causes and treatment of asthma, and come to discuss what we can do to address the impact which asthma has on community life.

The GACC workshop is for everyone who is concerned about community health. We have collected and prepared educational materials in Haitian Kreyol. It doesn’t matter whether you have had one year or 12 years of school, everyone is invited to participate!
Bishop Michael Bruce Curry (the first African-American presiding bishop of the American Episcopal Church) preached on the "redemptive power of love."

“The American bishop did it black. And he shocked the congregation by refusing to tone down his passionate message on power and love.” -- Diana Evans, The Guardian, May, 20, 2018

Here is a partial transcript of Bishop Curry’s sermon:

….. Think and imagine a world where love is the way.

Imagine our homes and families where love is the way. Imagine neighborhoods and communities where love is the way.

Imagine governments and nations where love is the way. Imagine business and commerce where this love is the way.

Imagine this tired old world where love is the way. When love is the way - unselfish, sacrificial, redemptive.

When love is the way, then no child will go to bed hungry in this world ever again.

When love is the way, we will let justice roll down like a mighty stream and righteousness like an ever-flowing brook.

When love is the way, poverty will become history. When love is the way, the earth will be a sanctuary.

When love is the way, we will lay down our swords and shields, down by the riverside, to study war no more.

When love is the way, there's plenty good room - plenty good room - for all of God's children.

Because when love is the way, we actually treat each other, well... like we are actually family.

When love is the way, we know that God is the source of us all, and we are brothers and sisters, children of God.

Pouvwa nan lanmou

Ekstrè nan prèch Evèk Michael Curry nan maryaj wayal a 20 Me 2018.

Evèk Michael Curry (Premye Afriken-Ameriken prezidan Evèk nan Legliz Episkopal Ameriken an) t ap anonse sou pouvwa a redanmsyon nan renmen.

Isit la se yon transkripsyon pasyèl nan prèch Evèk Curry a:

…..Panse ak imagine yon mond kote renmen se chemen an.

Imajine kay nou yo ak fanmi kote lanmou se chemen an. Imajine katye ak kominote kote lanmou se chemen an.

Imajine gouvènman ak nasyon kote lanmou se chemen an. Lè lanmou se chemen san egojis, sakrifis, redanmsyon.

Lè lanmou se chemen an, lè sa a, pa gen okenn timoun ki pral ale nan kabann grangou nan mond sa a tout tan ankò.

Lè lanmou se chemen an, nou pral kite jistis woule desann tankou yon kouran vanyan sólda ak jistis tankou yon ravin tout tan ap koule tankou dlo.

Lè lanmou se chemen an, povrete yo ap vin istwa. Lè lanmou se wout la, tè a pral yon repozwa.

Lè lanmou se chemen an, nou pral mete nepe nou yo plak pwotèj a kote, n ap desann bò larivyè Lefrat la, nou pap etidye lagè ankò.

Lè lanmou se chemen an, gen anpil bon chanm anpil, bon chanm pou tout timoun Bondye yo.

Paske lè lanmou se chemen an, nou aktyèlman trete chak òtòt, byen .... tankou nou aktyèlman fanmi.

Lè lanmou se chemen an, nou konnen ke Bondye se sous la nan nou tout, epi nou se frè ak sè, pitàt Bondye.

Stand by Me

This song “Stand By Me” was performed at the royal wedding and heard by people all over the world. You can hear the song on YouTube. Here are the lyrics:

When the night has come  
And the land is dark  
And the moon is the only light we'll see  
No I won't be afraid, No I won't be afraid  
Just as long as you stand, stand by me

Refrain:  
So darling, darling  
Stand by me, oh, stand by me  
Oh stand, stand by me,  
Stand by me

If the sky that we look upon  
Should tumble and fall  
Or the mountains should crumble to the sea  
I won't cry, I won't cry  
No I won't shed a tear  
Just as long as you stand, stand by me

Refrain

Whenever you're in trouble, won't you stand by me  
Oh stand by me,  
Oh won't you stand now?  
Stand by me

Tech Goes Home at GACC

After GACC staff member completed training at Tech Goes Home, we were able to run the first Tech Goes Home program at GACC beginning in March. Eight students have successfully completed 15 hours of TGH / GACC training in computers and digital skills. These students were all able to purchase a new computer (Chromebook) for $50. Here is a description of the program from the Tech Goes Home - Community website:

Adults learn fundamental digital skills from local community site staff. Courses cover topics including but not limited to job searching, financial literacy, communicating with friends and family, and finding educational programs. The program involves 15 hours of training conducted by a TGH trained staff member from the community organization in which the course is run. Courses run in libraries, community centers, public housing developments, and more. Upon completion of TGH, participants have the option of purchasing a new computer for $50 and we help them sign up for low-cost Internet access.

Are you interested in participating in the Tech Goes Home program at GACC?

This summer the training program will be held two mornings a week (Tue. & Thurs.) for three weeks at -

GACC, 155 Washington St. Dorchester  
Tuesday, July 24 to Thursday, August 9.  
9 AM to 12 PM

You must pre-register for the course in person -

Tuesday, June 26 OR Thursday, June 28
10 AM to 12 PM
GACC, 155 Washington St.

There is a maximum enrollment of 8 students. Instruction is delivered in Haitian Kreyol and in English.

Note: You must complete 15 hours of training in order to purchase a computer through the Tech Goes Home program.
We would like to express our gratitude towards English For New Bostonians (ENB) for funding our services during the fiscal year. Without their support, we would not be able to keep our doors open to service a population that is in dire need. We are in awe of the way ENB has helped us throughout the years. In addition to granting GACC an operational budget, the staff of ENB has also engaged us in various workshops that strengthened our team, which resulted in students becoming more prepared for the next steps. Through professional development for teachers, and tutoring services and workforce development training for students, we were further able to help our population create the necessary connections to their new environments.

And for that we humbly thank you, English for New Bostonians!

We would like to recognize Boston Cares for providing volunteers that led conversation groups all year long. To address our growing waiting list, we have partnered with Boston Cares to provide these recipients with a helpful source of learning until space is available in our classes. In these sessions, students engage in innovative and fun activities created by the volunteers that strengthen their vocabulary. As a result, we have noticed an increase in literacy in those that attend. In addition their direct interaction with students, Boston Cares has gone the extra mile to recruit almost forty volunteers that helped clear and renovate our site into a warmer environment. Our students and staff are incredibly grateful for this wonderful partnership. Go Boston Cares!
