What Is Improvisation?

Improvisation is life!

We don’t wake up with a script in front of us.

We go shopping, to work, out to dinner . . . we live our lives without preparing reactions, interactions and dialogs before they happen. We have to think on our feet.

Life is improvisation.
Classroom improvisation is just role play without a script. For example . . .

story
Building Scenes from Scratch

The Sequence

1. Offer the choice of “accessible” content.
2. Share stories in small groups - START TALKING!
3. choose one story that’s easy to perform.
4. Review the story and set the scene (scenario).
5. Identify and assign characters - then STOP TALKING!
6. Get on your feet and go!
7. SHOW us (don’t tell us) the scenario.
8. Talk on your feet – the dialog happens.
Reflect

• How were we forced to think on our feet?
• If we did this in another language, would we do it perfectly?
• Would it be useful anyway?
• Will your students’ English be perfect?
• How will they benefit?
• Can you do this with your students?
• How can you modify it for your students?
