Notes for Teachers

Following is a new version of the citizenship interview script based on procedural changes recent applicants have encountered at the Boston office. The most important change is that the interview is now divided into three parts, typically with three different interviewers in three different office locations. This is the reason for the repetition of several questions.

The general scenario is as follows:

The applicant checks in, receives a number, and sits down in the waiting area.

After 10-15 minutes, the applicant’s number and a window location are displayed on a video screen. The applicant goes to the specified location (there are eight windows in all) and speaks with the first interviewer.

Upon completion of the first step, the applicant returns to the waiting area and repeats the same sequence, only this time a different window location is displayed, and a different interviewer is involved.

Upon completion of the second step, the applicant returns to the waiting area. This time, a third interviewer arrives, introduces himself/herself, and accompanies the applicant to a private office. It is worth noting that, in one case thus far, the second interviewer combined steps 2 and 3 into one step.

Feel free to use this script as a guide, to add and/or remove N-400 and civics questions during mock interviews, and to introduce different reading/writing sentences.

Notes for Students

Feel free to ask the interviewer to repeat, repeat slowly, or rephrase any question you don’t understand.

Do not guess. A terribly wrong answer can signal a lack of comprehension.

Do not lie!

If the interviewer does not pass you only because of a “meaning” question, ask politely, “May I speak with a supervisor?”
