Why YouTube?

- Most students are familiar with it, already have the app, etc.
- Students can watch videos on their own time and as often as they want
- Easy to share links via WhatsApp, e-mail, etc. and well-integrated with Google Classroom
- Lots of content for English learners (grammar, pronunciation, explanations in native languages, etc.)
Why YouTube?

- Huge variety of content for native speakers in any area of interest (sports, cooking, cars, etc.)
- Captions and slower playback speed can aid comprehension
- Students can subscribe to channels to be notified whenever new videos are posted
A quick survey

1. How have you used YouTube as a teacher? If you haven’t yet, how would you like to?

2. Are there particular channels or videos you would recommend for learning English or other content? (I will ask you to send me specific links after the workshop so I can compile them.)

3. Do you use YouTube a lot yourself? What kind of videos do you watch?
