

How to Use Quizizz

Andrew Shapira
First Literacy
October 2021

Objectives

- Create interactive quizzes with a variety of question types
- Integrate content and formative assessment in lessons
- Analyze assessment data by accessing reports

Quizizz and Kahoot both offer...

- “Gamified” quizzes/lessons with a variety of question types
- Live and student-paced versions
- Reports with lots of assessment data
- Searchable libraries with material that you can use or adapt

Quizizz vs. Kahoot

Quizizz

- Free version includes all question types
- Paid version is \$96/year; includes video/audio and other features

Kahoot

- Free version includes only multiple choice and T/F
- Paid versions start at \$36/year; include more question types/slides and other features

Quizizz vs. Kahoot

Quizizz

- Up to 5 answer choices
- PIN is optional (students can just click a link)

Kahoot

- Up to 4 answer choices
- Students need to enter a PIN (for live version)

Quizizz in action

- Let's play!
- Creating questions
- Launching a quiz
- Accessing reports

Lessons

- “Have you ever” questions
- Integrating slides and questions
- New slide editor
- Importing slides (must save as PDF first)

Things to note

- Google Image search and other new features
- Library and teleporting
- Classes/Google Classroom integration
- Feedback via email
- Quiz settings

Discussion

1. How would you like to use Quizizz in the future? Which features most appeal to you?
2. How could you take advantage of lessons and reports?
3. What other teaching apps/tools have you used successfully?

Homework

Create a quiz or lesson with Quizizz. Send it to me for feedback. Feel free to contact me with questions!
