

Dear Representative Walsh

My name is [REDACTED], and I live in Peabody. I am writing to express my concern about F. Higher Education Equity Act (HD. 1349 and SD. 762), and to ask for your support on the issue.

This issue is important to me because access to higher education is very important for intellectual and professional growth. I would like to request opportunity for all those who have an interest in qualifying professionally. I am very grateful for all the opportunities already achieved here, and already dream of having access to higher education one day.

For these reasons, I am asking you to support the F. Higher Education Equity Act bill.

Thank you for your time.

Sincerely,

[REDACTED]

NSCAP Student
